COMPANY OVERVIEW

KRYDO Energy Limited is a Nigerian energy and investment company focused on building sustainable business opportunities across the energy value chain and related strategic sectors.

The company operates with a forward-looking approach to petroleum marketing, fuel supply, energy infrastructure, power generation, and strategic investments, with the objective of creating long-term value for customers, business partners, investors, and other stakeholders.

KRYDO Energy Limited is committed to developing a trusted and professionally managed energy business built on integrity, operational excellence, safety, innovation, and sustainable growth.

Our approach is to identify viable opportunities, develop strategic partnerships, mobilize resources, and build businesses and projects capable of delivering measurable economic and social value.

COMPANY HISTORY

KRYDO Energy Limited was established with a clear vision to build a trusted and forward-looking Nigerian energy company focused on creating sustainable value across the energy sector.

From its foundation, KRYDO has been positioned to pursue opportunities in petroleum marketing, fuel supply, energy infrastructure, power generation, and strategic investments. The company was created with the belief that Nigeria's growing energy needs present significant opportunities for responsible businesses, strategic investors, and strong partnerships.

KRYDO is building its foundation around professionalism, integrity, innovation, safety, and responsible business practices. As the company progresses, it is committed to developing strategic relationships, expanding its operational capabilities, and pursuing commercially viable projects that contribute to Nigeria's energy development.

With a long-term growth vision, KRYDO Energy Limited aims to evolve into a diversified energy and infrastructure company capable of participating in significant projects and creating lasting value for its customers, investors, partners, employees, and communities.

Today, KRYDO Energy Limited continues to build toward a future defined by energy, opportunity, and sustainable growth.

OUR VISION

To become a leading Nigerian energy company recognized for excellence in energy supply, infrastructure development, power generation, strategic investments, and sustainable business growth.

KRYDO Energy Limited seeks to contribute to the development of a stronger and more reliable energy ecosystem in Nigeria and, over time, expand its activities across Africa and other strategic markets.

OUR MISSION

Our mission is to deliver reliable energy solutions and develop commercially viable energy projects through responsible investment, strategic partnerships, operational excellence, and innovation.

We aim to:

- Provide dependable petroleum and energy solutions to our customers.
- Develop and participate in strategic energy infrastructure projects.
- Explore opportunities in power generation and energy transition.
- Build strong relationships with investors, financial institutions, suppliers, and strategic partners.
- Create sustainable long-term value through disciplined investment and responsible business practices.
- Maintain the highest standards of integrity, safety, quality, and corporate responsibility.

MESSAGE FROM THE CEO / MANAGING DIRECTOR

At KRYDO Energy Limited, we are building more than an energy company—we are building a platform for sustainable growth, strategic partnerships, and long-term value creation.

Our vision is bold: to participate meaningfully in shaping Nigeria's energy future through excellence, innovation, integrity, and responsible investment.

We believe that with the right people, strong partnerships, and disciplined execution, great possibilities become achievable.

Together, we are powering energy, building value, and creating the future.

Samuel Irewole Ojo

Chief Executive Officer / Managing Director

INVESTMENTS

ORGANIZATIONAL STRUCTURE

KRYDO Energy Limited operates through a structured management framework designed to support effective leadership, accountability, operational efficiency, and sustainable growth.

The company's organizational structure is designed to ensure that strategic decisions are aligned with the company's long-term vision while day-to-day operations are managed efficiently by qualified professionals.

BOARD OF DIRECTORS

Provides strategic oversight, corporate governance, policy direction, and accountability, ensuring that the company operates in the best interests of its stakeholders and in accordance with applicable laws and regulations.

CHIEF EXECUTIVE OFFICER / MANAGING DIRECTOR

Provides overall leadership and strategic direction for KRYDO Energy Limited, overseeing the company's business development, operations, partnerships, investments, and long-term growth strategy.

EXECUTIVE MANAGEMENT

The Executive Management team supports the CEO/Managing Director in implementing the company's strategy and managing key business functions.

Key executive functions include:

- Operations & Energy Business
- Finance & Investment
- Business Development & Strategy
- Sales & Marketing
- Human Resources & Administration
- Legal, Compliance & Corporate Affairs
- Health, Safety, Security & Environment (HSSE)
- Procurement & Supply Chain
- Information Technology & Digital Transformation

BUSINESS UNITS & PROJECT TEAMS

KRYDO Energy Limited may establish specialized business units and project teams to manage specific areas of the company's operations, including:

Petroleum Marketing & Fuel Supply

Responsible for petroleum product marketing, customer relationships, supply coordination, and commercial activities.

Energy Infrastructure

Focused on energy infrastructure development, storage, logistics, and strategic infrastructure projects.

Power & Energy Solutions

Focused on power generation, renewable energy, distributed energy solutions, and related energy projects.

Strategic Investments & Partnerships

Responsible for identifying, evaluating, and developing investment opportunities, joint ventures, project financing, and strategic partnerships.

Corporate Services

Provides support across finance, administration, human resources, legal, compliance, procurement, technology, and corporate communications.

ORGANIZATIONAL PRINCIPLE

KRYDO Energy Limited is committed to building a professional, accountable, and performance-driven organization. As the company grows, its organizational structure will evolve to accommodate new business units, projects, subsidiaries, and strategic partnerships.

The company aims to attract and develop talented professionals who share its commitment to integrity, excellence, innovation, safety, and sustainable growth.

MANAGEMENT TEAM

KRYDO Energy Limited is led by a management team committed to building a professionally managed, growth-oriented, and sustainable energy company.

Our leadership approach combines strategic vision, responsible decision-making, operational discipline, and a strong commitment to integrity and excellence.

CHIEF EXECUTIVE OFFICER / MANAGING DIRECTOR

Provides overall leadership and strategic direction, driving the company's vision, business growth, strategic partnerships, investment initiatives, and long-term corporate development.

DIRECTOR, OPERATIONS & ENERGY BUSINESS

Oversees the company's operational activities across petroleum marketing, fuel supply, energy infrastructure, and other energy-related business operations, ensuring efficiency, reliability, and compliance.

DIRECTOR, FINANCE & INVESTMENT

Responsible for financial strategy, financial planning, capital management, investment analysis, project financing, and financial relationships with investors and funding partners.

DIRECTOR, BUSINESS DEVELOPMENT & STRATEGY

Leads the identification and development of new business opportunities, strategic partnerships, joint ventures, market expansion initiatives, and corporate growth strategies.

DIRECTOR, SALES & MARKETING

Responsible for developing the company's commercial strategy, customer relationships, brand positioning, market development, sales growth, and corporate communications.

HEAD, LEGAL, COMPLIANCE & CORPORATE AFFAIRS

Provides oversight on legal matters, regulatory compliance, corporate governance, contracts, policies, and stakeholder relations, helping ensure that the company's activities are conducted responsibly and in accordance with applicable requirements.

HEAD, HEALTH, SAFETY, SECURITY & ENVIRONMENT (HSSE)

Leads the company's commitment to health, safety, security, environmental responsibility, risk management, and safe operational practices across its activities.

MANAGEMENT COMMITMENT

KRYDO Energy Limited is committed to building a strong leadership team with the expertise, experience, and professional integrity required to execute its strategic objectives.

As the company expands, KRYDO will continue to strengthen its management structure by attracting experienced professionals and industry specialists who can contribute to the company's growth and long-term vision.

**Our leadership philosophy is simple:
think strategically, act responsibly,
execute with excellence, and create
lasting value.**

OUR CORE BUSINESS AREAS

KRYDO Energy Limited is committed to building a diversified energy and infrastructure company with a strong focus on sustainable growth, operational excellence, and long-term value creation.

Our core business areas reflect our strategic focus and the key sectors where we create value for our customers, partners, investors, and stakeholders.

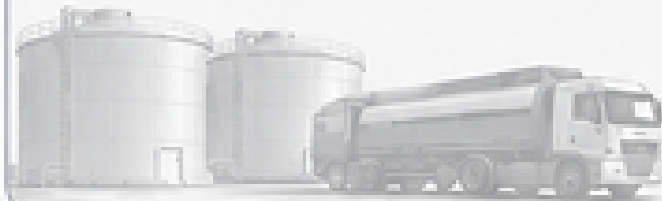

4.1

PETROLEUM MARKETING & FUEL SUPPLY

KRYDO Energy Limited is focused on opportunities in the downstream energy sector, including the marketing and supply of petroleum products to eligible customers and commercial users.

Our activities are designed to support the efficient movement and availability of energy products while maintaining strong standards of reliability, compliance, safety, and customer service.

4.2

ENERGY INFRASTRUCTURE

We seek to participate in the development, ownership, operation, and financing of strategic energy infrastructure.

Potential areas of interest include:

- Petroleum storage and distribution infrastructure
- Energy logistics
- Fuel supply infrastructure
- Tank farms and related facilities
- Energy distribution networks
- Strategic infrastructure partnerships

KRYDO's approach is to work with qualified partners and stakeholders to identify commercially viable infrastructure opportunities.

4.3

POWER GENERATION & ENERGY SOLUTIONS

KRYDO Energy Limited recognizes the critical role of reliable electricity in Nigeria's economic development.

The company intends to explore opportunities in:

- Power generation
- Independent power projects
- Renewable energy
- Solar energy solutions
- Distributed energy systems
- Hybrid energy solutions
- Energy efficiency initiatives

Our long-term ambition is to participate in large-scale power generation and energy infrastructure development that can contribute to Nigeria's growing energy needs.

4.4

STRATEGIC INVESTMENTS

KRYDO Energy Limited actively explores strategic investment opportunities that align with its long-term objectives. We seek opportunities where capital, expertise, partnerships, and operational capabilities can be combined to create sustainable value.

Our investment focus may include:

- Energy projects
- Infrastructure
- Power
- Real estate and property-related opportunities
- Strategic businesses
- Project financing
- Joint ventures
- Other commercially viable opportunities aligned with our corporate strategy

All investment opportunities are subject to appropriate commercial, financial, legal, regulatory, and technical due diligence.

4.5

PROJECT DEVELOPMENT & PARTNERSHIPS

KRYDO seeks to collaborate with investors, financial institutions, energy companies, infrastructure developers, technology providers, and other strategic stakeholders to develop and execute viable projects.

Through strong partnerships, the company aims to combine capital, expertise, technology, and operational capabilities to create sustainable and scalable businesses.

OUR LONG-TERM VISION

KRYDO Energy Limited is being developed with a long-term growth strategy focused on building a diversified energy platform.

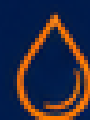

Our strategic ambition includes developing capabilities across the energy value chain and pursuing opportunities that can strengthen Nigeria's energy security and economic development.

Over the long term, KRYDO aims to explore opportunities for participation in major energy projects, including large-scale petroleum infrastructure and power generation.

Our long-term vision is to build an energy company capable of operating at significant scale while maintaining strong corporate governance, financial discipline, safety standards, and responsible environmental practices.

OUR FUTURE

KRYDO Energy Limited is building toward a future in which energy access, infrastructure, technology, and responsible investment come together to create lasting value.

Our ambition is to grow from a focused Nigerian energy company into a diversified energy and infrastructure platform with the capacity to participate in projects of national and regional significance.

We believe the future of energy will require a combination of:

CAPITAL

INNOVATION

INFRASTRUCTURE

PARTNERSHIPS

RESPONSIBLE
LEADERSHIP

KRYDO Energy Limited intends to position itself at the intersection of these opportunities.

OUR BUSINESS APPROACH

KRYDO Energy Limited believes that sustainable growth is built on five fundamental principles:

INTEGRITY

We conduct our business with honesty, transparency, accountability, and respect for our stakeholders.

EXCELLENCE

We strive to maintain high standards in our operations, services, partnerships, and project execution.

INNOVATION

We embrace new technologies, ideas, and business models that can improve efficiency and create new opportunities.

PARTNERSHIP

We believe strategic partnerships are essential to successfully developing complex energy and infrastructure projects.

SUSTAINABILITY

We seek to build businesses that create long-term economic value while respecting environmental, social, health, and safety responsibilities.

GUIDED BY PURPOSE. FOCUSED ON IMPACT.

Our business approach guides every decision we make. It shapes how we operate, who we partner with, and the value we create for our stakeholders and the communities we serve.

ENERGY

INFRASTRUCTURE

POWER

GROWTH

INVESTMENT & PARTNERSHIP APPROACH

KRYDO Energy Limited recognizes that large-scale energy and infrastructure development requires strong partnerships and access to appropriate capital.

THE COMPANY IS OPEN TO ENGAGING WITH:

- ✓ Private investors
- ✓ Institutional investors
- ✓ Financial institutions
- ✓ Project finance partners
- ✓ Strategic investors
- ✓ Energy companies
- ✓ Infrastructure developers
- ✓ Joint venture partners
- ✓ Government and public-sector stakeholders
- ✓ Technology providers
- ✓ International development partners

KRYDO seeks to structure partnerships around commercially viable opportunities, clear objectives, appropriate risk management, strong governance, and mutually beneficial outcomes.

Potential investment and financing opportunities may be structured differently depending on the nature and stage of each project. These may include equity participation, project financing, strategic partnerships, joint ventures, or other legally permissible structures.

All investment opportunities are subject to applicable laws, regulatory requirements, due diligence, and definitive agreements.

OUR COMMITMENT TO INVESTORS

KRYDO Energy Limited seeks to build long-term relationships with investors based on **trust, transparency, accountability, and responsible management.**

We are committed to providing investors and funding partners with appropriate information regarding relevant investment opportunities, including:

Business objectives

Project information

Proposed use of funds

Investment structure

Key risks

Financial information,
where applicable

Relevant legal and regulatory
considerations

Investment opportunities presented by KRYDO will be subject to the applicable terms, conditions, regulatory requirements, due diligence processes, and definitive legal agreements.

**PARTNERS IN GROWTH.
COMMITTED TO VALUE.**

At KRYDO, we believe strong partnerships drive sustainable growth, create opportunities, and deliver long-term value for investors, communities, and the nation.

WHY PARTNER WITH KRYDO?

KRYDO Energy Limited seeks to differentiate itself through:

STRATEGIC FOCUS

Our activities are focused on sectors that play an important role in Nigeria's economic development, particularly energy and infrastructure.

GROWTH POTENTIAL

Nigeria's growing population and economy continue to create significant demand for reliable energy, petroleum products, infrastructure, and power solutions.

PARTNERSHIP-DRIVEN MODEL

We recognize that successful energy development requires collaboration and seek to build relationships with experienced investors, operators, institutions, and technical partners.

LONG-TERM PERSPECTIVE

KRYDO is being built with a long-term vision focused on creating sustainable businesses rather than pursuing short-term opportunities alone.

COMMITMENT TO GOVERNANCE

We aim to establish strong internal controls, responsible management practices, compliance systems, and transparent stakeholder relationships as the company grows.

Strong partnerships.
Shared vision.
Sustainable impact.

Together, we can build the energy infrastructure that powers progress and creates lasting value.

CORPORATE GOVERNANCE

KRYDO Energy Limited is committed to establishing a corporate governance framework that promotes accountability, transparency, responsible decision-making, and effective risk management.

As the company grows, KRYDO intends to strengthen its governance structure through appropriate:

-  Management oversight
-  Financial controls
-  Risk management systems
-  Compliance procedures
-  Internal policies
-  Board-level oversight
-  Stakeholder reporting

The company is committed to conducting its affairs in accordance with applicable Nigerian laws and regulatory requirements.

HEALTH, SAFETY, SECURITY & ENVIRONMENT

Health, Safety, Security, and Environmental responsibility are fundamental to KRYDO Energy Limited's approach to business.

We recognize that energy operations can involve significant operational, environmental, and safety considerations.

KRYDO is committed to promoting:

Safe working environments

Responsible operational practices

Environmental protection

Risk identification and mitigation

Emergency preparedness

Employee and contractor safety

Regulatory compliance

Continuous improvement

Our objective is to ensure that business growth does not come at the expense of people, communities, or the environment.

HEALTH

SAFETY

SECURITY

ENVIRONMENT

CORPORATE RESPONSIBILITY

KRYDO Energy Limited believes that responsible business practices contribute to sustainable economic development.

We aim to operate responsibly by:

Supporting local economic participation

Creating employment opportunities as the business grows

Developing professional talent

Promoting ethical business practices

Maintaining responsible environmental standards

Supporting communities connected to our operations

Building relationships based on mutual respect

We are committed to creating value not only for our stakeholders, but also for the society and environment in which we operate.

CONCLUSION

KRYDO Energy Limited is **committed** to building a trusted, growth-oriented, and professionally managed energy company.

Through **strategic partnerships**, **responsible investment**, **disciplined execution**, and **a commitment to excellence**, we seek to participate in the development of Nigeria's energy future while creating sustainable value for our stakeholders.

We **welcome opportunities** to engage with investors, financial institutions, strategic partners, energy companies, and other stakeholders who share our vision for a stronger and more sustainable energy future.

**BUILDING TODAY.
POWERING TOMORROW.**
